## Profile Summary

Dedicated and dynamic Backend Developer with over a year of experience in crafting robust, scalable solutions using Laravel, API development, and database management. Passionate about exploring cutting-edge technologies and innovative approaches to deliver high-performance web applications, including multitenant systems, e-commerce platforms, and management systems. Adept at writing clean, maintainable code and continuously enhancing expertise through hands-on projects and experimentation. Committed to driving innovation, optimizing system performance, and contributing to team and organizational success with a proactive and creative mindset.

## Skills

- **Programming Languages:** PHP (Laravel), JavaScript, SQL
- **Frameworks & Tools:** Laravel, MySQL, RESTful APIs, Git
- **Technical Expertise:** Backend Development, API Integration, Database Migration, Performance Optimization
- **Soft Skills:** Project Management, Team Collaboration, Problem Solving, Effective Communication, Critical Thinking, Continuous Learning

## Languages

- **English:** Fluent
- **Nepali:** Native
- **Hindi:** Intermediate

## Work Experience

### Backend Laravel Developer

*ITServiceNepal, Biratnagar, Nepal* ([itservicenepal.com](https://itservicenepal.com))

2024 – Present

- Actively developing and optimizing Laravel-based web applications, delivering scalable and high-performance backend solutions.
- Designing and implementing RESTful APIs to ensure seamless integration with frontend systems and third-party services.

- Contributing to innovative projects such as Payment Management Systems, Gym Management Systems, CMS, and HRMS, enhancing functionality and user experience through creative problem-solving.
- Exploring new tools and techniques to improve development workflows and system efficiency.

## Freelance Backend Developer

*Biratnagar, Nepal*

2023 – 2024

- Engineered and maintained Laravel-based applications, including multitenant systems and e-commerce platforms, focusing on scalability and performance.
- Developed RESTful APIs to enable smooth integration with frontend applications and external services, tailoring solutions to diverse client needs.
- Spearheaded real-world projects like Payment Management Systems, Gym Management Systems, CMS, and HRMS, delivering innovative and customized solutions.
- Continuously explored emerging technologies to enhance project outcomes and personal skill growth.

## Academic Projects

### Gym Management System

*Purbanchal University School of Engineering*

2024

- Built a comprehensive Gym Management System using Laravel and MySQL, streamlining member tracking, scheduling, and payment management.
- Integrated RESTful APIs for efficient data exchange between frontend and backend, ensuring a seamless user experience.
- Implemented secure data handling and responsive design, meeting project requirements while experimenting with modern development practices.

### Website Development

*Purbanchal University School of Engineering*

2022 – 2023

- Led collaborative development of responsive websites, utilizing HTML, CSS, and JavaScript for engaging front-end features.
- Developed robust backend functionalities with Laravel and MySQL, incorporating secure API integrations.
- Enhanced portfolio website with mobile-friendly UI, including hamburger menus and touch-optimized navigation, while exploring advanced web development techniques.

## Education

### Bachelor in Computer Engineering

*Purbanchal University School of Engineering, Biratnagar, Nepal*

2021 – Present

- **Relevant Coursework:** Data Structures, Algorithms, Database Management, Web Development, IoT Systems
